Adding an Alternative Name (Maiden Name, Nickname) to User Profiles

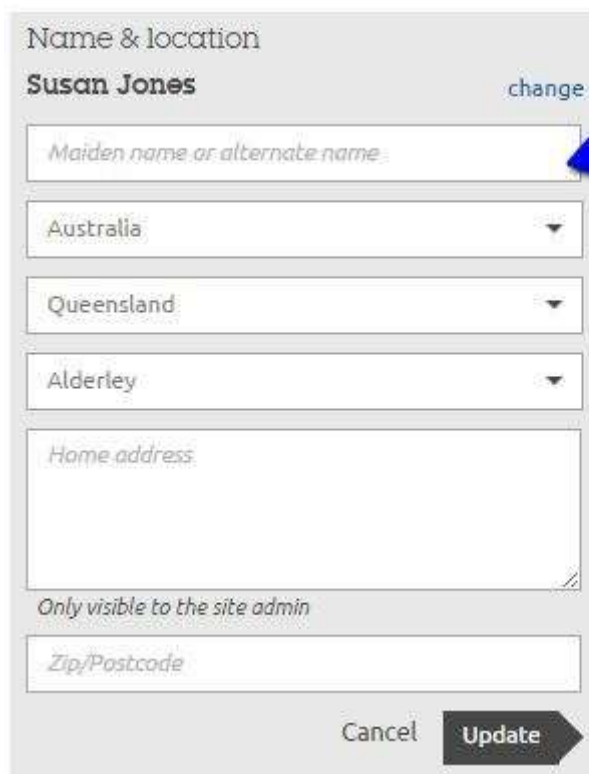

It is now possible for users to add a maiden name, professional name, or a nickname to their profile.

Here's how to do it:

- Go to the "Me" tab on the top menu.

- Click on the "Update your Profile" button on the right hand side of your profile page.
- Type your "alternative" name in the "Name and Location" field and click "update".

A screenshot of a profile update form titled "Name & location". The current name "Susan Jones" is displayed at the top with a "change" link to its right. Below this is a text input field labeled "Maiden name or alternate name" with a blue arrow pointing to it. Underneath are three dropdown menus for "Australia", "Queensland", and "Alderley". A larger text area is labeled "Home address" with a note "Only visible to the site admin" below it. At the bottom is a "Zip/Postcode" field. The form has "Cancel" and "Update" buttons at the bottom right.

Once an "alternative" name has been added it will appear in parenthesis on the user's profile page.

SUMMARY

Innovative software engineer with 8 years of experience in the full software development lifecycle – from concept through delivery of next-generation applications and customizable solutions.

Expert in advanced development methodologies, tools and processes contributing to the design and rollout of cutting-edge software applications.

"Alternative" names are searchable, making it easier for old classmates to find each other in the platform directory.

Jobs Posting Update

When posting a new job, users have the option to advertise a worldwide position without the need to specify a country.

Job seekers can now also search for worldwide positions.

Post a job
Fields marked with * are mandatory
